

Little Heroes Pediatric Cancer Research Foundation

(formerly known as Friends for Steven)

was founded by Beth and Jim Newkirk
in memory of their son Steven.

Little Heroes devotes itself
to helping families cope
while raising funds to advance
research, so that one day soon,
no family will have to suffer
the loss of a child to cancer.

Please contact
a caring volunteer at

Little Heroes Pediatric Cancer Research Foundation

is a dedicated group of volunteers
trying to make a difference
in the lives of children and families
diagnosed with neuroblastoma.

Our volunteers have experienced many
of the concerns, hardships, and worries
a neuroblastoma diagnosis presents.
We offer our combined experience
to help you find your way.

We can answer questions from
how to make the best of
an extended hospital stay,
to how to make the medicine
go down easier.

We've faced your challenges
and are here to help.
